

# KARDEX Lektriever

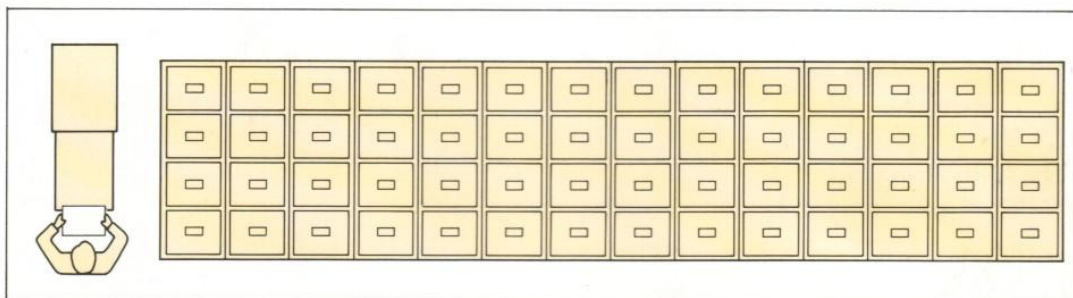

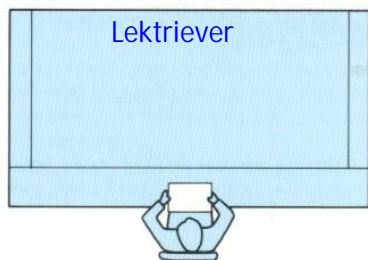

*Media Station / Records Management*

Document storage and records management system offers up to 100% greater capacity over traditional filing cabinets in the same footprint

KARDEX Lektrievers save space, improve productivity, address your OH&S issues and blend into the most stylish office décor.

## Competitive Advantage

Progressive businesses demand that both electronic and hard copy documents are stored, located or retrieved at a moment's notice. A Kardex Lektriever will bridge the gap by facilitating hard copy document storage and retrieval at the touch of a button.

## Space Saving Comparison

KARDEX Lektriever can provide 100% more storage capacity than four drawer filing cabinets in the same footprint. Lektrievers are available up to 3.65m high. A 14 carrier Lektriever at 2.5mH provides more than 40 lineal metres of storage and the equivalent to 16+ four drawer filing cabinets, or 33 shelves in your standard 1200w Compactus.
